

The ground in the immediate locality of the crater has sunk two feet. Excavations made show that the smoke proceeds from an extensive bed of ashes. Originally the source of disturbance was situated beneath the residence of a farmer, but the volume of smoke and intense heat compelled the destruction of the house. It is impossible that the smoke should proceed from burning mines, as there are no mineral deposits in this locality. Frequent rains have failed to quench the subterranean fires.

#### NO END IN SIGHT.

Miners' Strike Still Far From Settlement.

PITTSBURG, Pa., August 23.—Miners to resume work at the 54-cent rate, pending a decision of a board of arbitration.

Miners to resume work at an intermediate rate between the rate demanded and the one paid before the suspension pending a decision of a board of arbitration.

Miners to resume operations without a price named pending a decision of a board of arbitration.

These three propositions were submitted by the special committee of railroad coal operators of the Pittsburgh district at a conference held tonight.

Miners to resume work at the 69-cent rate pending the decision of a board of arbitration is the proposition submitted by the officers of the miners to the special committee. The propositions were talked over in an informal manner by both sides, when an adjournment was taken until 10 o'clock tomorrow morning.

As near as can be learned, the miners' officials will stand firm on the proposition they have made. In support of this claim they say that it is equally as fair for the miners to resume at the 69-cent rate pending arbitration as it is for them to go to work at the 54-cent rate under the same conditions.

After the conference tonight, several members of the committee of the operators said that a conference of operators of other States had been entirely eliminated from the controversy and that only the Pittsburgh district was being considered. National President Ratchford and District President Dolan stoutly maintained that the question was still an interstate one, and the general question is being generally deliberated upon. From the information at hand, the contending parties are still far apart. The operators hope that one of their propositions will be accepted.

WILL AID AMERICAN GROWERS. Prospect That Russia Will Prohibit Wheat Exports.

PHILADELPHIA, August 22.—The Press will say tomorrow: Word has been received at this port that the Russian Government is meditating the promulgation of a decree prohibiting the exportation of wheat, owing to the small crops in Southern Russia, and this report is causing some uneasiness to those interested.

The effect of this contemplated action will be to create a strong demand for tonnage in the Black Sea, so that as much grain as is possible may be shipped before the prohibition takes effect. This in itself would be calculated to force up freights on vessels loading here.

A well-known shipping man in this city said that this contemplated action of the Russian Government makes it almost a settled fact that Europe must look to the United States to fill her orders for cereals. Just what increase of business this means for Philadelphia, New York and Baltimore alone is incalculable. The exports of grain from Philadelphia, which already are the largest on record, will reach figures in excess of what has been the most sanguine expectation of shippers. Within the next few weeks cargoes of grain will be shipped from here to ports in the Adriatic Sea, to St. Louis du Rhone, Marseilles and Alexandria, Egypt.

This in itself serves to confirm the rumored prohibitory export law of the Russian Government, for unless something of the kind is contemplated it would be an unusual action to make such imports from ports at such a distance.

NO ONE TO TAKE HIS PLACE. Premier Canovas' Place is Hard to Fill.

PARIS, August 22.—Gen. Lopez Dominguez, who was Spanish Minister of war in the last Cabinet of Senor Sagasta, is now in Paris.

In the course of an interview he deeply deplored the death of Senor Canovas del Castillo. He regards General De Azaraque, the new Premier, as a clever and active man, but does not believe that he will be able to replace Senor Canovas, as the dual task of being the head of the Government and also the head of the Conservative party is a heavy one.

"I do not believe that either Europe or the United States," he said, "will interfere in the Cuban difficulty. Spain has incalculable resources at her command, and the only thing to be feared is that political disputes may prevent the suppression of a rebellion which has now arrived at the limit of exhaustion."

PROFESSOR ELLIOTT AGAIN. Now He Says the Seal Branding Is Not Successful.

CLEVELAND, Ohio, August 23.—The remark of Dr. Jordan, as contained in the press dispatches of the 22d, that the "skins of branded cows returned this year to the islands show clearly the permanency of the mark and its efficiency to render the skin unsaleable without injury to the animal or to the herd," was commented on by Professor Elliott today as follows:

"I yield to no one in my esteem for Dr. Jordan's ability and integrity, but in this statement I believe him to be premature. The seals which were branded last year, and which Jordan speaks of as returning this year so marked, were some 350 female pup seals or the young of that season of

1896. They were branded between the 13th and 20th of September, or after they had shed their natural coat and put on their sea-going jackets for the coming year of their lives. Fur seals renew their hair once every year. Jordan has not yet had the time to observe the effects of the branding. "I was forcibly impressed by the fact that all scars and wounds in the skins of fur seals healed without cicatrice while studying these animals on the island in 1873-74-75. It was a very singular deviation from the law which governs such healing in the hides of horses, cattle or dogs and cats. I followed it closely in 1873 and again in 1874 and found it to be constant."

A CURE FOR BILIOUS COLIC. RESOURCE, Screen Co., Ga.—I have been subject to attacks of bilious colic for several years. Chamberlain's Colic, Cholera and Diarrhoea Remedy is the only sure relief. It acts like a charm. One dose of it gives relief when all other remedies fail.—G. D. SHARP. For sale by all druggists and dealers. Benson, Smith & Co., agents for Hawaiian Islands.

## OUR HALF-YEARLY CLEARANCE SALE

WILL COMMENCE WEDNESDAY, SEPT. 1ST.

Do not confound this store with the chronic bargain sale houses. Our goods are right, and we are doing just what we advertise—not palming off shop-worn or damaged goods—but placing on sale first-class articles. We are overstocked, and as our order has been placed for the holiday stock, we must make room for it.

## FOR TWO WEEKS

WE WILL DISPOSE OF ANY LINE AT A

Reduction of One-Fourth Its Former Price.

You have received true and good values at our sales in the past, and we now propose to give you another opportunity. See for yourself.

## IWAKAMI.

HOTEL STREET. ROBINSON BLOCK.

## Wire Glass

IS THE PRODUCT of a recently invented process by which wire netting is so incorporated in a sheet of glass as to be completely enveloped and protected from any corroding or deteriorating influences.

The function of the netting and purpose of the inventor in making this novel use of same, is to give to sheet glass a greater amount of stability under extreme conditions, and therefore a wider range of application than has been possible heretofore.

Glass so reinforced will not melt or break to pieces when exposed to heat, cannot be cut or tampered with, will resist much rougher usage, and is, therefore, more desirable for sidewalk or floor lights, skylights, and any exposed situation. The meshing of wire, together with the tinge of green given this glass in blowing, make it unnecessary to use any artificial means to modify its illuminating power or to insure privacy.

As already stated, this glass cannot be cut, but is manufactured in various sizes. We have in stock sizes from 20x40 inches to 40x100 inches, sizes extremely useful for skylight or sidelight uses, a single sheet answering in place of a number of lights, thus reducing the chance of leakage in exposed places.

We have placed this style of glass on the balcony in front of our new store, and find it most acceptable in giving the place MORE LIGHT. Call at 227 and 229 King Street and inspect this new glass, as well as the fine line of Plumbing and House-Furnishing Goods we carry.

JOBBER GIVEN PROMPT ATTENTION.

## EXECUTORS SALE OF RESIDENCE!

By order of the Executors of the Estate of ADELIA CORNWELL, deceased, I will sell at Public Auction, on the premises, Judd Street, Honolulu,

On Friday, October 15, AT 10 O'CLOCK A. M.,

that valuable property, known as the

## Cornwell Residence

and at present occupied by Mrs. Widdifield.

The real estate comprises about 4.7-100 acres of the finest residence property in Honolulu.

The grounds are planted with a vast variety of fruit, shade, palm and other trees, and are laid out with fine carriage drives and walks through tropical foliage. One of the valley streams runs through the eastern boundary of the property.

The main dwelling is a commodious two-story building, containing Spacious Drawing Room, Dining Room, Billiard Room, Bed Rooms, etc., and has all modern improvements. The house is substantially built and the rooms are all well ventilated. Sanitary plumbing throughout.

Cottages, Stables, Carriage Houses and Out-houses on the property. The situation commands an unsurpassed view of the Harbor, the main portion of the City and the adjacent mountain scenery. This is one of the largest and finest residences that has been offered at public sale in Honolulu, and must be sold to close the above Estate.

Immediately following the sale of the residence, I will sell

The Entire Household Furniture particulars of which can be obtained at my office.

Parties contemplating purchasing the Residence and wishing to inspect the same, should make application at my office, No. 33 Queen Street.

## S. KIMURA,

—WHOLESALE DEALER IN— Japanese Wines, Liquors

—AND PROVISIONS—

: : : Saki a Specialty.

ALLEN STREET. Telephone, 704.

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pump, Centrifugals, Elevators, Pumps, Railways and Hoists; also furnish light and power for a radius of from 15 to 20 miles.

Electric Power being used saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also have on hand a large stock of Wire, Cables and Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also attention is given to House and Marine Wiring.
